Updates and Upgrades

See next page for details on update and upgrade conditions.

- ☐ This is an update of PLOP 3 to PLOP 4 or PLOP DS 4
☐ This is an upgrade from PLOP 4 to PLOP DS 4

Previous license key (required for updates and upgrades):

Product, Platform, and Quantity

Please enter desired quantities below. Prices are for a single computer regardless of CPU count. US-\$ prices are for customers in the Americas, Australia, and Japan; Euro prices for all other regions. Volume discounts are available for 5 or more licenses (see next page). PLOP DS offers all features of PLOP plus digital signatures.

	PLOP 4.0	PLOP DS 4.0
Windows/Mac/Linux	US-\$ 495	US-\$ 995
Windows Server 2000/2003/2008	Euro 395	Euro 795
Apple Mac OS X Server PPC/Intel		
Linux x86/x86_64/EM64T		
Sun/IBM/HP	PLOP 4.0	PLOP DS 4.0
Sun Solaris on x86/sparc	US-\$ 995	US-\$ 1.995
IBM AIX 5	Euro 795	Euro 1.595
HP-UX 11 on PA-RISC		
Desktop systems	PLOP 4.0	PLOP DS 4.0
Windows 2000/XP/Vista	US-\$ 99	US-\$ 199
Apple Mac OS X PPC/Intel	Euro 79	Euro 159

Support

- ☐ Technical support plus all minor and major updates within one year: add 18% of the license fee (see next page for details)
☐ (Only if the box above is checked) Automatically renew the support every year unless it is explicitly terminated by customer.

Credit Card Information

- ☐ EuroCard/MasterCard ☐ Visa ☐ American Express

Card number: _____

Expiration date (month/year): _____ / _____

Name on card: _____

You can also mail a check along with this order form.

Corporate purchase orders are accepted from within Germany, and from large international corporations. PO number: _____

Signature

Title _____

Printed name _____

Date _____

Authorized signature _____

All sales are governed by our Terms and Conditions (available at www.pdflib.com). You will not receive any physical media, but must download the software from our Web site. We will send you an invoice with the license key. This form is valid until June 30, 2010.

PDFlib® PLOP / PLOP DS

Licensing Notes

Products

All PLOP packages contain combined binaries which cover two products (see below for a more detailed feature description):

- ▶ PLOP is a versatile tool which can repair, linearize, optimize, encrypt, and decrypt PDF documents, and deal with XMP metadata;
- ▶ PLOP DS (Digital Signature) offers all features of PLOP plus the ability to apply digital signatures to PDF documents.

Both products can be evaluated without a license, but some features are restricted unless a valid license key is applied (see manual).

According to your order the license key will activate PLOP or PLOP DS.

PLOP Features

PDFlib PLOP offers the following features:

- ▶ PDF linearization for fast Web delivery (byteserving).
- ▶ Optimization: reduce the file size of PDF documents without affecting quality.
- ▶ Protection: encrypt or decrypt PDF documents and apply or remove permission settings, such as »printing not allowed« or »content extraction not allowed«.
- ▶ Repair mode: automatically detect damaged PDF documents and fix the problems if possible.
- ▶ PDF analysis: query arbitrary properties of a PDF document.
- ▶ Document info entries: query, add, or replace document info entries.
- ▶ XMP metadata: add XMP and synchronize document info.

PLOP is engineered for server use (thread-safe and robust, no memory leaks, clean exception handling).

PLOP DS Features

PLOP DS (Digital Signature) offers all features of PLOP plus the ability to apply digital signatures to PDF documents. Signatures can be created from digital IDs in the PKCS#12 and PFX certificate formats. On Windows digital IDs from the Windows certificate store can be used. On Windows, Linux, and Solaris secure cryptographic tokens with PKCS#11 support can be used (e.g. a smartcard or USB device).

Standard Conformance

All PLOP and PLOP DS operations are PDF/X- and PDF/A-aware: if the input conforms to one of these standards, the output is guaranteed to conform to the same standard. This is especially important for PDF/A-conforming XMP handling and digital signatures.

Support

We offer optional support contracts in combination with a new product license, or to renew an existing support contract. Customers with an active support contract will benefit from the following advantages:

- ▶ technical support with short response times
- ▶ all minor (maintenance) and major (functional) updates included
- ▶ early availability of patchlevel (bugfix) versions
- ▶ maintenance releases and technical support available until the end of a product's lifetime

For a detailed description of support benefits please refer to our Terms and Conditions which are available on our Web site. The support fee is 18% of the license fee per year.

Support contracts can optionally be renewed automatically every 12 months until the support is explicitly terminated by the customer. In order to terminate a support agreement with automatic renewal please inform us one month before the support expires.

Scope of a License

One license covers a single computer running under the selected operating system (platform), regardless of the number of CPUs. Development licenses for machines which are not used for production purposes and run under the same operating system are free with each purchase. Redundant (backup) machines do not require a separate license, provided they are never used concurrently with the actual production machines. Groups of load-balancing servers require a license for every server in the group.

Operating System Platform

Supplying the name of the target operating system platform is a strict requirement since the license is bound to a specific platform. The license is valid for all supported language bindings (programming languages) on the selected platform.

A separate price list is available for IBM eServer iSeries and zSeries.

Volume Discounts

Volume discounts are available for multiple licenses of the same product, provided all licenses are ordered with a single combined order:

- ▶ If 5 or more licenses are ordered, 10% discount off the list price is granted for all licenses.
- ▶ If 10 or more licenses are ordered, 15% discount off the list price is granted for all licenses.

Please contact us for discounts on higher numbers of licenses.

Updates of older Versions

An update changes an existing license to a license for a functionally enhanced version of the same product on the same platform. An update invalidates the old license. A valid license key must be supplied with an update order. The following table indicates the fees for various update combinations as a percentage of the target product's list price:

To	Update from PLOP 3 or PLOP DS 3
PLOP 4	60% of the target product's
PLOP DS 4	list price for all combinations

Upgrades

An upgrade changes an existing license for PLOP 4 to a license for PLOP DS 4 on the same platform. An upgrade invalidates the old license. A valid license key must be supplied with an upgrade order:

To	Upgrade from PLOP 4
PLOP DS 4	50% of list price for PLOP DS 4

Premium Licenses

In addition to machine-based licenses PDFlib GmbH offers Premium licenses with extended rights, such as site licenses, integration licenses, and source code licenses.

Premium licenses do not require any royalties, and can be combined with support. Please contact premium@pdflib.com for more information about these license types.
