

# AES-256 encryption and Unicode passwords

This document produced by PDFlib is AES-256-encrypted.  
It can only be opened by Acrobat 9 and later.

The master password of this document is:

ŋŷ ff fi

Use cut&paste to enter the password into the Acrobat  
prompt for changing the security settings of the document.

Because the password is normalized, it can also be entered  
like this (note the decomposed ligatures):

ŋŷ ff fi
