Customers in Germany must add 19% VAT (MwSt.). Customers from other European Union countries must provide their VAT registration number (No. TVA, BTW-Nr, SE-Nr, ALV-NRO, P.IVA, OB-Nr, UID-Nr, NIPC, MomsNr, CIF/NIF) here:

Updates and Upgrades

See next page for details on update and upgrade conditions.

- This is an update of PLOP 2 to PLOP 3 or PLOP DS 3
- This is an upgrade from PLOP 3 to PLOP DS 3

Previous license number (required for updates and upgrades):

Product, Platform, and Quantity

Please enter desired quantities below. Prices are for a single computer regardless of CPU count. US-\$ prices are for customers in the Americas, Australia, and Japan; Euro prices for all other regions. Volume discounts are available for 5 or more licenses (see next page). PLOP DS offers all features of PLOP plus digital signatures.

	PLOP 3.0	PLOP DS 3.0
Windows/Mac/Linux	US-\$ 495 Euro 395	US-\$ 995 Euro 795
Windows Server 2000/2003/2008		
Apple Mac OS X Server PPC/Intel		
Linux x86/x86_64/EM64T		

	PLOP 3.0	PLOP DS 3.0
Sun/IBM/HP	US-\$ 995 Euro 795	US-\$ 1995 Euro 1595
Sun Solaris 7-10 on x86/sparc		
IBM AIX 5		
HP-UX 10.20/11i on PA-RISC/IA-64		

	PLOP 3.0	PLOP DS 3.0
Desktop systems	US-\$ 99 Euro 79	US-\$ 199 Euro 159
Windows 2000/XP/Vista		
Apple Mac OS X PPC/Intel		

Support

- Technical support plus all minor and major updates within one year: add 18% of the license fee (see next page for details)

Credit Card Information

- EuroCard/MasterCard Visa Diners American Express

Card number: _____

Expiration date (month/year): _____ / _____

Name on card: _____

You can also mail a check along with this order form.

Corporate purchase orders are accepted from within Germany, and from large international corporations. PO number: _____

Signature

With your signature the PLOP 3.0 license agreement dated February 2008 is accepted. The agreement is contained in the software package, and is available from www.pdflib.com. As indicated in the license agreement, you will not receive any physical media, but must download the software from our Web site and apply the license key from your invoice.

Title _____

Printed name _____

Date _____

Authorized signature _____

Notes on Licensing Options

Products

All PLOP packages contain combined binaries which cover two products (see below for a more detailed feature description):

- ▶ PLOP is a versatile tool which can repair, linearize, optimize, encrypt, and decrypt PDF documents.
- ▶ PLOP DS (Digital Signature) offers all features of PLOP, plus the ability to apply digital signatures to PDF documents. The digital signature feature is only available in PLOP DS, but not in the PLOP base product.

Both products can be evaluated without a license, but some features are restricted unless a valid license key is applied (see manual).

According to your order the license key will activate PLOP or PLOP DS.

PLOP Features

PDFlib PLOP offers the following features:

- ▶ Linearization: create linearized (web-optimized) PDF files for faster delivery from a Web server
- ▶ Optimization: remove unnecessary and duplicate objects (e.g. multiply embedded fonts) from a PDF document, and create a more efficient PDF object structure; in many cases this results in considerably smaller files.
- ▶ Protection: encrypt/decrypt PDF documents with user and master password, apply/remove permission settings (such as printing not allowed, content extraction not allowed); AES encryption with 128-bit keys. All protection methods use standard PDF encryption; no custom Acrobat plugins are required for viewing.
- ▶ Repair: several kinds of damaged PDF documents are detected and automatically repaired.
- ▶ Document information entries can be queried and set.
- ▶ The pCOS interface can be used to query arbitrary properties of a PDF document.

PLOP is suitable for server use (thread-safe and robust, no memory leaks, clean exception handling). A detailed description of PLOP features can be found in the documentation.

PLOP DS Features

PLOP DS (Digital Signature) offers all features of PLOP, plus the ability to apply digital signatures to PDF documents. The signatures can be validated in Adobe Acrobat and Adobe Reader, without the need for any additional software. Signatures can be created from digital IDs in the common PKCS#12 and PFX certificate formats. On Windows digital IDs from the Windows certificate store can also be used.

PLOP signatures are PDF/X- and PDF/A-aware: if the input conforms to one of these standards, the output is guaranteed to conform to the same standard.

Support

We offer optional support contracts in combination with a new product license, or to renew an existing support contract. Customers with an active support contract will benefit from the following advantages:

- ▶ technical support with short response times
- ▶ all minor (maintenance) and major (functional) updates included
- ▶ early availability of patchlevel (bugfix) versions
- ▶ maintenance releases and technical support available until the end of a product's lifetime

For a detailed description of support benefits please review the document »PDFlib GmbH support policy« which is available on our Web site. The support fee is 18% of the license fee per year.

Scope of a License

One license covers a single computer running under the selected operating system (platform), regardless of the number of CPUs. Development licenses for machines which are not used for production purposes and run under the same operating system are free with each purchase. Redundant (backup) machines do not require a separate license, provided they are never used concurrently with the actual production machines. Groups of load-balancing servers require a license for every server in the group.

Operating System Platform

Supplying the name of the target operating system platform is a strict requirement since the license is bound to a specific platform. The license is valid for all supported language bindings (programming languages) on the selected platform.

A separate price list is available for IBM eServer iSeries and zSeries. Note that we can deliver our products for even more platforms than those listed on this form; please contact us for details.

Volume Discounts

Volume discounts are available for multiple licenses of the same product, provided all licenses are ordered with a single combined order:

- ▶ If 5 or more licenses are ordered, 10% discount off the list price is granted for all licenses.
- ▶ If 10 or more licenses are ordered, 15% discount off the list price is granted for all licenses.

Please contact us for discounts on higher numbers of licenses.

Updates of older Versions

An update changes an existing license to a license for a newer version of the same product on the same platform. An update invalidates the old license. CPU-based licenses for PLOP 2 can be updated at a reduced license fee. Each CPU license for PLOP 2 entitles to an update to a PLOP 3 license. For example, a dual-CPU license for PLOP 2 can be updated to two PLOP 3 licenses. A valid license key must be supplied with an update order. Maintenance updates (e.g., from version 3.0 to 3.1) are free.

To	Update from PLOP 2
PLOP 3	60% of the target product's list price
PLOP DS 3	80% of the target product's list price

Upgrades

An upgrade changes an existing license for PLOP 3 to a license for PLOP DS 3 on the same platform. An upgrade invalidates the old license. PLOP 3 licenses can be upgraded at a reduced fee. A valid license key must be supplied with an upgrade order:

To	Upgrade from PLOP 3
PLOP DS 3	50% of the target product's list price

Premium Licenses

In addition to machine-based licenses PDFlib GmbH offers Premium licenses with extended rights, such as site licenses, integration licenses, and source code licenses.

Premium licenses do not require any royalties, and can be combined with support. Please contact premium@pdflib.com for more information about these license types.
