PDFlib® TET PDF IFilter

Notes on Licensing Options

What is PDFlib TET PDF IFilter?

TET PDF IFilter extracts text and metadata from PDF documents and makes it available to search and retrieval software on Windows. This allows PDF documents to be searched on the local desktop, a corporate server, or the Web. TET PDF IFilter indexes not only page contents, but also custom metadata, bookmarks, and PDF attachments. It is based on the patented PDFlib Text Extraction Toolkit (TET), which is an established developer product for reliably extracting text from PDF documents.

TET PDF IFilter is a robust implementation of Microsoft's IFilter indexing interface. It works with all search and retrieval products which support the IFilter interface, e.g. SharePoint and SQL Server. Such products use format-specific filter programs – called IFilters – for particular file formats, e.g. HTML. TET PDF IFilter is such a program, aimed at PDF documents. The user interface for searching the documents may be the Windows Explorer, a Web or database frontend, a query script, or a custom application. As an alternative to interactive searches, queries can also be submitted programmatically without any user interface.

Based on patented TET Technology

PDFlib TET, the basis of TET PDF IFilter, was first released in 2002, and has been used by customers worldwide in server and desktop environments. It extracts text, images, and metadata from PDF documents. As an alternative to extracting page contents and metadata as raw text, TET can supply the document contents in XML format. TET is also available as a free plugin for Adobe Acrobat; this plugin allows interactive test and evaluation of TET's superior text extraction.

Unique Advantages

TET PDF IFilter offers the following advantages:

- ▶ Supports Western text, Chinese, Japanese, and Korean (CJK) text and right-to-left languages such as Arabic and Hebrew
- ▶ Indexes protected documents and extracts text even from PDFs where Acrobat fails
- ▶ Supports Unicode folding, decomposition, and normalization
- ▶ Deployment: thread-safe, fast and robust, 32- and 64-bit versions
- ▶ Automatic script and language detection for improved search results

Enterprise PDF Search

TET PDF IFilter is available in fully thread-safe native 32- and 64-bit versions. You can implement enterprise PDF search solutions with TET PDF IFilter and the following products:

- ▶ Microsoft SharePoint Server
- ▶ Microsoft Search Server
- ▶ Microsoft SQL Server
- ▶ Microsoft Exchange Server
- ▶ Microsoft Site Server

TET PDF IFilter can be used with all other Microsoft and third-party products which support the IFilter interface.

Desktop PDF Search

TET PDF IFilter can also be used to implement desktop PDF search, e.g. with the following products:

- ▶ Windows Search is integrated in Windows Vista/7; also available as free add-on for Windows XP
- ▶ Windows Indexing Service

TET PDF IFilter is free for non-commercial use on desktop operating systems, which provides a convenient basis for test and evaluation.

Scope of a License

One license covers a single computer running under the selected operating system (platform), regardless of the number of CPUs. Development licenses for machines which are not used for production purposes and run under the same operating system are free with each purchase. Redundant (backup) machines do not require a separate license, provided they are never used concurrently with the actual production machines. Groups of load-balancing servers require a license for every server in the group.

TET PDF IFilter is free for non-commercial use on desktop operating systems (but not server operating systems).

Support

We offer optional support contracts in combination with a new product license, or to renew an existing support contract. Customers with an active support contract will benefit from the following advantages:

- ▶ technical support with short response times
- ▶ all minor (maintenance) and major (functional) updates included
- ▶ early availability of bug fixes
- ▶ maintenance releases and technical support available until the end of a product's lifetime
- ▶ additional licenses can be purchased until the end of the lifetime

For a detailed description of support benefits please refer to our General License and Support Conditions which are available on our Web site. The support fee is 18% of the license fee per year.

Support contracts can optionally be renewed automatically every 12 months until the support is expressly terminated by the customer. In order to terminate a support agreement with automatic renewal please inform us one month before the support expires.

Volume Discounts

Volume discounts are available for multiple licenses of the same product according to the table below, provided all licenses are ordered with a single combined order.

<i>number of licenses</i>	<i>discount off the list price</i>
5	10%
10	15%
20	40%
50	60%
100	75%
200	80%

Updates of older Versions

An update changes an older license to a license for a newer version on the same platform, thereby invalidating the old license. A valid license key must be supplied with each update order. The following table indicates the fees for updates as a percentage of the target product's list price:

<i>To</i>	<i>Update from TET PDF IFilter 3</i>
TET PDF IFilter 4	60% of the target product's list price

Premium Licenses

In addition to machine-based licenses PDFlib GmbH offers Premium licenses with extended rights, such as site licenses, embedding licenses, and source code licenses. Premium licenses do not require any royalties, and can be combined with support. Please contact premium@pdflib.com for more information.
