MasterCard  Visa  American Express

Card number:
Expiration date (month/year): /
Name on card:

Previous License Keys
One or more valid license keys must be supplied for each major update, minor update, upgrade or support renewal order:

Major Update
A major update changes a license to a license for a newer major version on the same platform, invalidating the old license. The fee for major updates is 60% of the license fee of the target product.
Customers without a support contract can add support with a major update. In this case the 20% support fee is based on the full license fee of the product (not the update fee).
This is a major update of the version 9 license(s) above to

PDFlib 10  PDFlib+PDI 10  PPS 10
Add support for one year at 20% of the license fee

Minor Update: 20% of the License Fee
A minor update changes a 10.x license to a license for the latest maintenance release on the same platform. The fee for minor updates is 20% of the list price of the target product.
This is a minor update of the version 10 license(s) above to the latest maintenance release at the time of purchase.

Upgrade to a more advanced Product
An upgrade changes an existing license for a PDFlib 10 product to the latest release of a more advanced product on the same platform, invalidating the old license(s). The upgrade and support fees are indicated below as percentage of the target product’s license fee.
This is an upgrade of the version 10 license(s) above from

PDFlib to PDFlib+PDI: 50%
PDFlib to PPS: 70%
PDFlib+PDI to PPS: 35%
Add support for one year at 20% of the license fee

Renew existing Support
Renew existing support for the license(s) above for one year at 20% of the license fee.

Automatic future Support Renewal
Available for major updates, upgrades and support renewals: automatically renew support every year until terminated.

The PDFlib Product Family
The PDFlib product family comprises three separate products:
- PDFlib includes a variety of functions for generating PDF output.
- PDFlib+PDI includes all PDFlib functions plus the PDF Import Library (PDI) for including existing PDF pages in the generated output. It also includes the pCOS interface for querying PDF objects.
- PDFlib Personalization Server (PPS) includes PDFlib+PDI plus functions for filling PDFlib Blocks. A PPS license also covers the PDFlib Block Plugin for creating Blocks interactively with Adobe Acrobat on macOS and Windows.

A feature comparison is available in the product documentation and on www.pdflib.com. PDFlib, PDFlib+PDI and PPS are distributed as a combined binary which is fully functional, but displays a demo stamp across all generated pages unless a valid license key is applied. The pCOS interface for querying PDF objects is contained in the evaluation versions, but it is limited to small documents. According to your order the license key will activate PDFlib, PDFlib+PDI or PPS.

Invoicing and Delivery
Orders are usually processed within one business day. Customers in the Americas, Australia and Japan will be invoiced in US-$, all other regions in Euro.

After processing your order we will send you an invoice and the license key(s). The software can be downloaded from www.pdflib.com.

Volume Discounts
Volume discounts are available for multiple licenses of the same product, provided all licenses are ordered with a single combined order:
- 5 or more licenses, updates or upgrades: 10% discount
- 10 or more licenses, updates or upgrades: 15% discount

Please contact us for larger numbers of licenses (see www.pdflib.com/buy/direct-sales/volume-discounts).

Value added Tax (VAT)
PDFlib GmbH’s invoicing and VAT handling are governed by EU law:
- Customers from non-EU countries will not be charged VAT.
- Customers from Germany will be charged VAT (MwSt.).
- Customers from all other EU countries must provide a valid VAT identification number. Orders without a valid VAT ID cannot be processed.

See www.pdflib.com/buy/direct-sales/vat for more information.

Operating System Platform
The target operating system platform must be specified with each order since the license is bound to a specific platform. Refer to the corresponding «system requirements» document for deployment details. The license is valid for all supported language bindings (programming languages) on the selected platform.
